Corrugated Orange tree

The corrugated orange tree is a fruit tree of the Rutaceae family, very vigorous with very fragrant white flowers and fruits of a particular shape, with a corrugated or grooved rind, orange-red. The fruit ripens in January- march. It is very suitable for growing in pots, for the beauty of its foliage and for the fragrance of flowering. In winter, keep the plant away from frost, in a bright place with constant temperatures, watering moderately.

Category: Citrus
Families: Rutaceae
Genus: Citrus
Species: sinensis "Corrugated"
Geographical Area of Origin: South-East Asia / Asia, Indian subcontinent
Climatic Zones: Sub-tropical, USDA 10 b (Southern Italy and islands)
Habit: Tree
Leaves: Evergreen
Colore Foglie: Verde
Flowering Period: Dicembre / Gennaio / Febbraio / Marzo / Settembre / Ottobre / Novembre
Flower: Corymb
Colore Fiori: Bianco
Favorite soil: Sub-acid / medium acid / Middle-Dough / Medium soil
Water needs: Medium
Light Exposure: Medium shade / Half shade / Full light / Full sun
Form: Espalier / Pyramid / Inverted cone / Tree / Grown as shrub / bush
Colore Frutti: Verde ï Arancione
Parfumed: yes
